

MUHAMMAD NAUFAL AULIA HUDA

WEB DEVELOPMENT | DATA ANALYSIS

Portofolio : <https://portofolio-muhammad-naufal-aulia-hu.vercel.app/>

PROFILE

Fifth-semester Computer Science student specializing in Web Development and Data Analysis. Experienced in developing responsive web applications using HTML, CSS, JavaScript, Laravel, and React, and conducting data analysis using Python and SQL. Familiar with UI/UX design, data preprocessing, and collaborative software development.

EDUCATION

Binus University

SI Computer Science

SMK Telkom Jakarta

Software Engineering

EXPERIENCE

Technology and Product Innovation – PT FINNET (February 2022 – April 2022)

- Designed UI/UX concepts for new Finpay features
- Developed product catalog website using HTML, CSS.
- Collaborated with cross-functional teams to translate ideas into functional feature

Academic Events - HIMTI (March 2024 - Now)

- Participated in planning and executing academic and technology-related events
 - Assisted in web programming and registration system management for events
 - Coordinated logistics and fundraising activities across multiple HIMTI divisions
 - Collaborated with team members to ensure smooth technical and operational execution
-

SKILLS

Technical Skills

- Programming Languages: Python, PHP, JavaScript, Java, R
- Web Technologies: HTML, CSS, Bootstrap, Tailwind, React, Laravel
- Database: MySQL
- Data Analysis: SQL, Data Preprocessing, Exploratory Data Analysis

SOFT SKILLS

- Teamwork and Collaboration
 - Problem Solving and Critical Thinking
 - Time Management
 - Communication Skills
 - Leadership
 - Adaptability
-

PROJECT

Forum Page

- Built a student discussion forum with CRUD functionality using React.js and PHP
- Implemented user interaction features for posting, updating, and deleting forum threads

Showroom Page

- Developed a car showroom website for displaying new and used vehicles using HTML and CSS
- Designed responsive page layouts to present vehicle information clearly and user-friendly

Exploratory Data Analysis Project

- Conducted data preprocessing including missing value handling, encoding, and normalization
 - Performed exploratory data analysis using Python to analyze data distribution and patterns
